

Pfizer Commute Options News

A “Best Work Places for Commuters” Employer

November 2003

Stop and Think -- Please do your part to help the environment and improve traffic congestion. If everyone carpoolled only one day per week, traffic would be reduced by 20%. More roads will not decrease congestion – only vehicle reduction will do that. Help by carpooling. – Call **Commute Options** at extension 2267 for assistance with finding a carpool partner and to register your carpool.

EPA Makes Best Workplaces for Commuters Announcement at MOPS

Wanted: Riders and Drivers to Save Money and Time

Carpooling is easy, inexpensive, and flexible!

Carpooling is when two or more people share a ride to or from work. Participants may take turns driving their own cars, or a single driver may make all the trips. Pfizer Morris Plains offers preferential parking and an Emergency Ride Home program for registered carpoolers, making carpooling a favorite among alternative commuters.

Think of all the time you'd have on your hands if they weren't on the wheel.

Don't forget the Train - Pfizer Morris Plains provides fare assistance and free shuttle service to and from the Morris Plains Station

It All Adds Up to Cleaner Air
